## DID YOU KNOW?

**4 OUT OF 10**

CommUnity Food Bank clients are children

The equivalent of

**8 LOCAL  
ELEMENTARY  
SCHOOLS**

could be filled exclusively with Johnson County children experiencing food insecurity

School's out, but hunger won't take a summer break. An estimated 4,400 children are food insecure in Johnson County and for many, school lunch is their only reliable meal.

From June to August, at least 100 children and their families will visit CommUnity Food Bank for the very first time. That's in addition to the 2,200 children we already serve on a monthly basis.

Help us keep our shelves fully stocked this summer by taking part in our Strike Out Hunger food drive. You can get involved by hosting a food drive or making a financial contribution.

***Join us in the fight against summer hunger!***
